

Predicting Serious Drug Side Effects in
Gastroenterology - PRED4
UKIBDGC and International IBDGC project.

PRED4 study is in its final year, as always thank you for all your support with this study. We would therefore be grateful if you could focus your recruitment efforts on 3 arms of PRED4 - Thiopurine liver injury (ALT 4x ULN), Thiopurine hypersensitivity reaction (flu like symptoms) and Anti-TNF demyelination.

Thiopurine induced myelosuppression at the BSG

We are completing confirmatory sequencing work on thiopurine myelosuppression and will present these data at the CORE symposium at the BSG in Liverpool. A manuscript will follow this September. In the meantime we do need your help completing the final data clarification forms and also chasing TPMT activity results for your patients.

BSG 2016
ANNUAL MEETING

Anti –TNF demyelination

We have organised a separate adjudication meeting with an expert panel of neurologists this September. Please look out for any patients with demyelination following anti-TNF therapy so that we can include these at this meeting.

New Look Database...

www.ibdresearch.net will have a new look next week. Your user names will still work but you will be asked to reset your password (12 characters). The upgrade is to improve the functionality and to incorporate a demo site.

Adjudication

We are looking for panel members for the adjudications meetings on the:

- **Thursday 22nd September 2016 (Thiopurine)**
- **28th September 2016 (PPI)**
- **Thursday 6th October 2016 (TNF)**
- **Thursday 8th Dec 2016 (Thiopurine)**
- **Wednesday 11th January 2017 (Thiopurine)**

We will cover your travel and accommodation in Exeter if you are interesting in joining us. Places are limited.
